

This message is being sent to express my support of continuing the availability of FM translator stations such as K-LOVE. I and my family listen to K-LOVE daily. It provides information on local events and even relevant events & news from other areas that I find informative. This station brings information that is not riddled with content and messages that I feel is inappropriate & am uncomfortable having my children listen too. The station creates a community that is broader than that in which I live & is full of supportive and positive program, from the music to the discussion shows. If K-LOVE is displaced by an LPFM broadcaster, I will miss the station significantly. I will lose the familiarity of the personalities and the safety in relaxing and listening. I also feel I will likely have to subject myself & family to an on-air environment that I have to diligently monitor, in order to ensure it is safe for young and impressionable ears. Off-color humor, commercials for adult products or events that have very adult humor or topics, are a regular, often overdone part of many radio stations. I believe that if a station such as K-LOVE, which has a format to appeal to a wide range of ages, is displaced from the most well-received FM translators, we continue to proliferate the message that it is acceptable for all messaging to reach any & all ages.
